

IPWA Trail Projects - Thank You!

August 2nd Trail Crew, thank you so much for your help on the BLRA trail reroute project!

IPWA and the Forest Service partnered to host a successful day of trail work. Our efforts helped close down social and unsustainable trails, and build a new trail on the north side of Brainard Lake Road. This new trail will serve visitors to BLRA, including those who park in the Gateway lot and are heading to the trailheads to the west. The new trail features a reduced grade and will facilitate natural water drainage.

We look forward to seeing you on August 23rd, our next Trail Projects day.
